

June 3, 1991

LB 693, 813

SENATOR MORRISSEY: Again, it was just to establish legislative intent that we all understand cities should be able to operate a regional landfill, so I'd ask to pull that too, please.

SPEAKER BAACK: It is withdrawn. Next item.

CLERK: Senator Robinson has an amendment, Mr. President.

SPEAKER BAACK: Senator Robinson.

SENATOR ROBINSON: Mr. Speaker, members of the body, my amendment would have prohibited the placing of a solid waste disposal landfill on a flood plain. And the reason I did this was to bring it to the attention of the body there's a landfill that's going to be up...which will be up for renewal in a year or two and it's in my...close to my congressional district and I will pursue this with a bill this coming session. I'd ask for you to withdraw this. Thank you.

SPEAKER BAACK: It is withdrawn.

CLERK: I have nothing further pending to LB 813, Mr. President.

SPEAKER BAACK: I see we are on the motion and, Senator Will, do you wish to make a motion to advance LB 813?

SENATOR WILL: Mr. Speaker, advancement of LB 813 to E & R for engrossment.

SPEAKER BAACK: It is debatable. Senator Beutler, did you wish to?

SENATOR BEUTLER: Mr. Speaker, just one quick comment. The question had been asked at one point in time on the definition of "applicant", which appears on page 1, line 4, and I wish to make clear for the record that the definition of "applicant" does not include any person, as defined in the section, who proposes to dispose of, on property that he or she owns as of January 1, 1991, waste which he or she generates or will generate on such property. I want to make that statement of intent clear, Mr. Speaker, and I have no further comment.

SPEAKER BAACK: You've heard the motion to advance LB 813. All those in favor say aye. Opposed no. It is advanced. Go to LB 693.
